

Project Status report

Name:	Mackenzie Kot
Community (UN SD goal):	Teenagers/Young Adults + SDG 15 Life on Land
MVP #	MVP 3
Sprint cycle dates:	Nov 16-Dec 4

Project Name	As the Light Grows
Blurb	A short side-scrolling game meant to make the player think about the consequences of light pollution in the real world. The player plays as a “shadow creature” that must avoid the light. As the levels progress, the area in which the levels take place gets more and more populated which will be a challenge for the player. Each level will also depict one or a few of the real consequences light pollution has on animals, and upon completion of each level, there will be a short info graphic/slide explaining the situation that the player witnessed. (ex. Lights attracting bugs to where they shouldn’t be) This game is meant to promote awareness about light pollution and its effects on animals, as it is often overlooked.
For Week Ending	December 4
Project Status	Green
Status Description	MVP 3 is all 4 levels complete, and I have done so
